

I love XM radio and it's amazing diversity and clarity. I listened to XM radio driving from Los Angeles to Chicago and the quality was amazing across the U.S. I also enjoy listening to XM's Traffic & Weather stations, separated by City. It is always direct and to the point with few commercials and continuous updates. I would like to respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the clearest, most diverse, and numerous radio stations in the country. XM FOR LIFE!!!
